PROFESSIONAL SUMMARY

UX designer and Computer Science graduate who loves making complex things feel simple. Skilled across user research, wireframing, prototyping, and interaction design in Figma, with a technical background that supports close collaboration with developers and curiosity about how AI tools are reshaping design workflows. Passionate about designing accessible, workflow-driven systems that balance user needs and business goals.

WORK EXPERIENCE

UX Designer Intern	Datacom	Apr 2026 – Current
- Designed across multiple enterprise projects at Datacom (Technical Intelligence Platform and Microsoft Copilot integration with Dash), leading user research, information architecture, and Figma prototyping using Datacom's Endeavour Design System - Built custom Figma, Confluence, and Jira MCP integrations in Cursor to streamline design, documentation, and ticketing workflows across the team - Presented design rationale and iteration decisions to senior stakeholders during sprint reviews, applying WCAG 2.1 AA standards across all design output		
Teaching Assistant	University of Auckland	Feb 2025 – Current
- Delivered UX/UI and Figma workshops to 100+ students, focusing on user-centred design and prototyping - Accumulated 15+ months of applied UX practice through hands-on workshop delivery, design critique, and mentoring students from brief through to high-fidelity prototype - Guided project teams through research, ideation, and prototyping processes while collaborating with teaching staff to improve learning outcomes		
Global Logistics Intern	ZURU	Nov 2025 – Feb 2026
Managed logistics data across 5+ regions and 10+ brands, modelling demand forecasts and supporting cross-functional projects in cost analysis, partner onboarding, and EDI setup		

PROJECT EXPERIENCE

UX Designer – Powerade G9 (Client Project / Contract)	Eden Park	Mar 2026 – May 2026
- Designed and delivered a live tournament scoring application used by 20+ teams across a 4-day event at Eden Park supporting real-time score entry, live leaderboards, and automated rankings - Led UX from wireframe through to a tested, production-ready prototype within a 6-week sprint cycle - Translated stakeholder requirements into an interface validated through iterative testing and feedback rounds		

EDUCATION

Mission Ready	Feb 2026 - Current
AI-Powered UX Designer, Applied Digital Technology Product Solutions (Level 6)	
AI-Powered UX Designer, Digital Technology Product Solutions (Level 5)	
University of Auckland	Feb 2023 – Nov 2025
Bachelor of Science - Computer Science and Information & Technology Management	
Relevant Coursework: Human-Computer Interaction, Business Systems Analysis, Innovation through Design, Digital Strategy, Web Programming, Object-Oriented Software Development, Data Management	

SKILLS

UX & Design: User Research, Prototyping, Information Architecture, Usability Testing, Interaction Design, Design Systems
AI & Prototyping: Cursor, MCP integrations (Figma, Confluence, Jira), AI-assisted prototyping
Core Skills: Stakeholder Communication, Problem Solving, Cross-Functional Collaboration, Agile Methodologies
Languages: HTML, CSS, JavaScript, Python **Tools:** Figma, Jira, Confluence, Excel, Microsoft Power Apps

VOLUNTEERING EXPERIENCE

Secretary	Developers Society	Oct 2024 – Oct 2025
Managed logistics for 10+ tech, academic, & social events, overseeing a 1K+ member club & coordinating a 24-member executive team. Handled 50+ inquiries monthly & collaborated with university departments for smooth event execution.		

INTERESTS

- Content Creation – Create lifestyle and digital content for an audience of 18K+ followers across social platforms, developing skills in storytelling, audience engagement, branding, and visual communication
